# CHRISTMAS TREE TUTORIAL

FREYA KOTCHAKORN

# HELLO!

Thank you for downloading this free tutorial.

In this tutorial, we are going to use some of the premium foliage brushes from my Effortless Flower Brush Set and a free glitter brush to draw this super easy Christmas Tree.

# CHRISTMAS TREE TUTORIAL

First, draw the general shape fo the tree using a peppermint brush. Lower the opacity of this layer. Then add new layers and start drawing the leaves using the Foliage no. 17, 10 and 6 brushes. Make sure that Dynamic Brush Scaling is turned on. It's under preferences.

# CHRISTMAS TREE TUTORIAL

Continue layering Foliage no. 7, 2, 8, and 1. to make your tree look full! Vary your strokes and pressure to create a more organic look.

# CHRISTMAS TREE TUTORIAL

Add decorations using Pollen brush no. 8 and Pollen brush no. 4 for the star.

# CHRISTMAS TREE TUTORIAL

Using the Glitter Gel Pen - Multi-colored, draw a ribbon spiraling around the tree. You can set the primary color to a gold yellow and the secondary color as white.

# CHRISTMAS TREE TUTORIAL

You can use a layer mask and the monoline brush to hide parts of the ribbon. Set the color to black to do this. Using the layer mask is a non-destructive way to cover up areas of your art.

# CHRISTMAS TREE TUTORIAL

Now to add a bit of sparkle! Using the default Lightpen from the luminance brush group, you can add glowing light around the Christmas tree for a truly festive look!

# CHRISTMAS TREE TUTORIAL

Tap on the first frame (it's the group illustration layers) and enable it as background. This way, the main illustration will not flicker in and out.

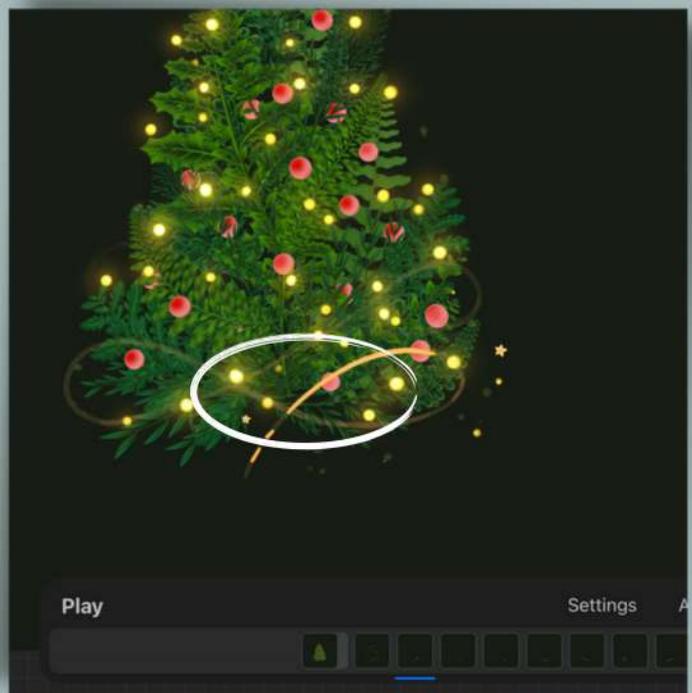

# CHRISTMAS TREE TUTORIAL

Add a frame, and trace the path of the ribbon from the bottom using the lightpen or the glitter gel brush.

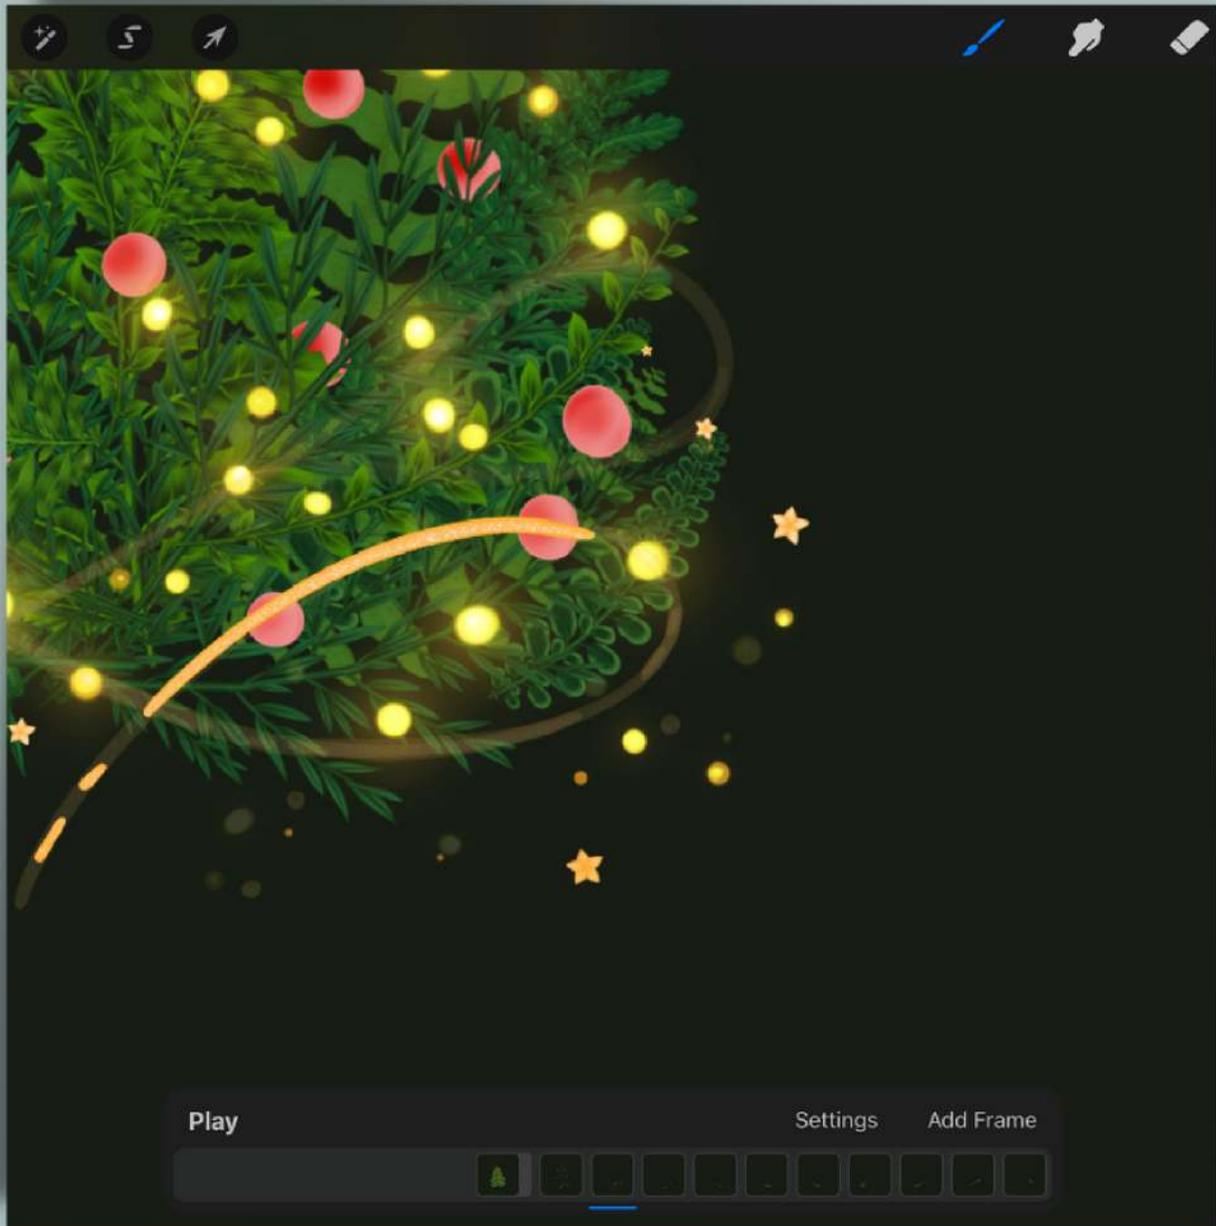

As you draw each ribbon segment, overlap the path so that there's a good continuity of movement. It's okay to have a lot of frames.

# CHRISTMAS TREE TUTORIAL

Add some glowing dots and small pollen # 4 (star shape) in each frame so that it twinkles in some areas. Repeat this process until you're happy with the result! Don't forget to turn off the original ribbon you traced earlier.
